## Packaging Equipment Proposal for Panna To Go.

Prepared for: Eng Carlos Barrios and Eng Alexander Rueda

## Main Features Pallet Wrapper - Automatic Series

Suitable for wrapping pallets with PE Stretch Film, to ensure quality standards.

1. High stability wrapping with auto cut and clamp system
2. Optional with Stainless Steel AISI 304# frame and turntable to withstand harsh and frozen environments
3. User-friendly features with Siemens PLC & HMI and start function with remote controlled
5. Top-level craft, professional mechanical design with safety features
6. Pallet Grip system with bottom grip and film rope grip and multi layer function
7. Pre-stretch film device motorized with rates up to 300% (1m stretch to 3m)

## Specifications

Model No.	W-1000
Voltage	AC220V 60HZ
Power	1.5kW
Pallet Size	1.2 x 1.1m
Max Pallet Weight	2000 kg
Max Pallet Height	2300 mm
Turntable Diameter	1650 mm
Turntable Height	100 mm
Machine Wrapping Speed	35 Load / H *Depends on pallet size and layers
Turntable Speed	3-12 RPM
Film carriage speed	1.5 - 5.5 m/min
Max Film Height	500 mm
Max Film Diameter	250 mm
Inner film roll diameter	76 mm
Material Thickness	25 micron
Pre-Stretch rate	300%
Machine Size	2800 x 1650 x 2745mm
Machine Weight	800kg
PLC & HMI	Siemens Smart Series
Inverter	Siemens
Turntable Roller	19 pcs
Column Frame	ABS + Steel ( Painted)
