Dear Luis,

Crown is pleased to present this proposal for a material handling solution designed to help you meet your company's operational goals. Our dedicated team of professionals is committed to providing integrated solutions that deliver a low total cost of ownership and exceptional long-term value.

Crown's award-winning line of lift trucks demonstrates its reputation for advanced product design, engineering, and integrated manufacturing processes. Offering a broad range of forklifts, as well as automation and fleet management technologies, Crown seeks to provide customers with innovative, forward-thinking solutions designed to improve performance and reduce operating cost.

Many top ranked companies choose Crown due to the extraordinary trust they place in the company and its products, as well as the support they receive from the most comprehensive customer support and service network in the industry. Our goal is to be one of your best business decisions.

Thank you for the opportunity to present this proposal and the prospect of supporting your business success.

Sincerely,

Erick Suarez

RR SERIES

EXPECT
MORE

At the end of the day, you need a reach truck that helps you get the job done quickly and safely. The Crown family of reach trucks gives you more for your investment by increasing pallet moves with high performing lift and travel speeds, and delivering smart traction and ergonomics that give operators an edge.

Discover how the RR 5700 can increase your operator, truck and operation-wide productivity.

Safety

Entry Bar Safety Switch helps keep feet inside the compartment by disabling travel when depressed. In addition, the Dual Pedal Floorboard requires both feet properly positioned for travel.

Traction Control

OnTrac® Anti-Slip Traction Control reduces tire spin—even on wet, slick floors—improving control and extending tire life.

Comfort

The S Class gives operators a choice to sit, lean or stand, positioning the operator for optimum comfort and performance. Armrest, control handle and seat easily adjust to fit the needs of different operators.

Rack Height Select

One touch Rack Height Select allows the operator to simply press a button between rack levels to stop the forks automatically at the desired pallet opening.

Quick Change Load Wheels

Removable load wheel assemblies allows load wheels to be replaced in as little as two and half minutes, reducing maintenance labor expense and improving truck uptime.

Expect more from your reach trucks.

Contact your local Crown dealer today.

A WINNING POWER COMBINATION

A time-proven, affordable power source, lead-acid batteries – matched with the right Crown lift trucks and V-Force high-frequency chargers – keep all light- and heavy-duty cycle applications running with dependable productivity. Crown service provides an extra boost of power to help keep fleets on the go.

Discover how V-Force Lead-Acid Batteries provide reliable, power across a range of duty cycles:

Proven Technology

Lead-acid batteries continue to be a tried and true, cost-effective source of lift truck power for a wide range of material handling applications, from single to multi-shift.

Multiple Solutions

Crown offers a choice of traditional flat plate lead-acid or tubular lead-acid batteries, along with a selection of chargers, to fit specific duty cycles, maintenance requirements and material handling needs.

Total Solutions Provider

Work with a Crown representative to find the right integrated solution – lift truck, battery and charger – to deliver the performance and efficiency needed for your material handling application and fleet.

Accessories & Supplies

Crown also offers a wide range of battery and charger accessories, including battery connectors, watering accessories, battery acid indicators, monitoring devices, service tools, and charger stands and cords.

Long-Term Crown Support

You can count on the Crown network of trained technicians to service your forklifts and V-Force batteries and chargers to avoid unplanned downtime and increase productivity.

Choose **Crown's V-Force Lead-Acid Batteries** for dependable power and productivity in your forklift fleet.
